

First practical De Laval cream separator—introduced in 1878.

First De Laval "Hollow Bowl" hand cream separator — introduced in 1885.

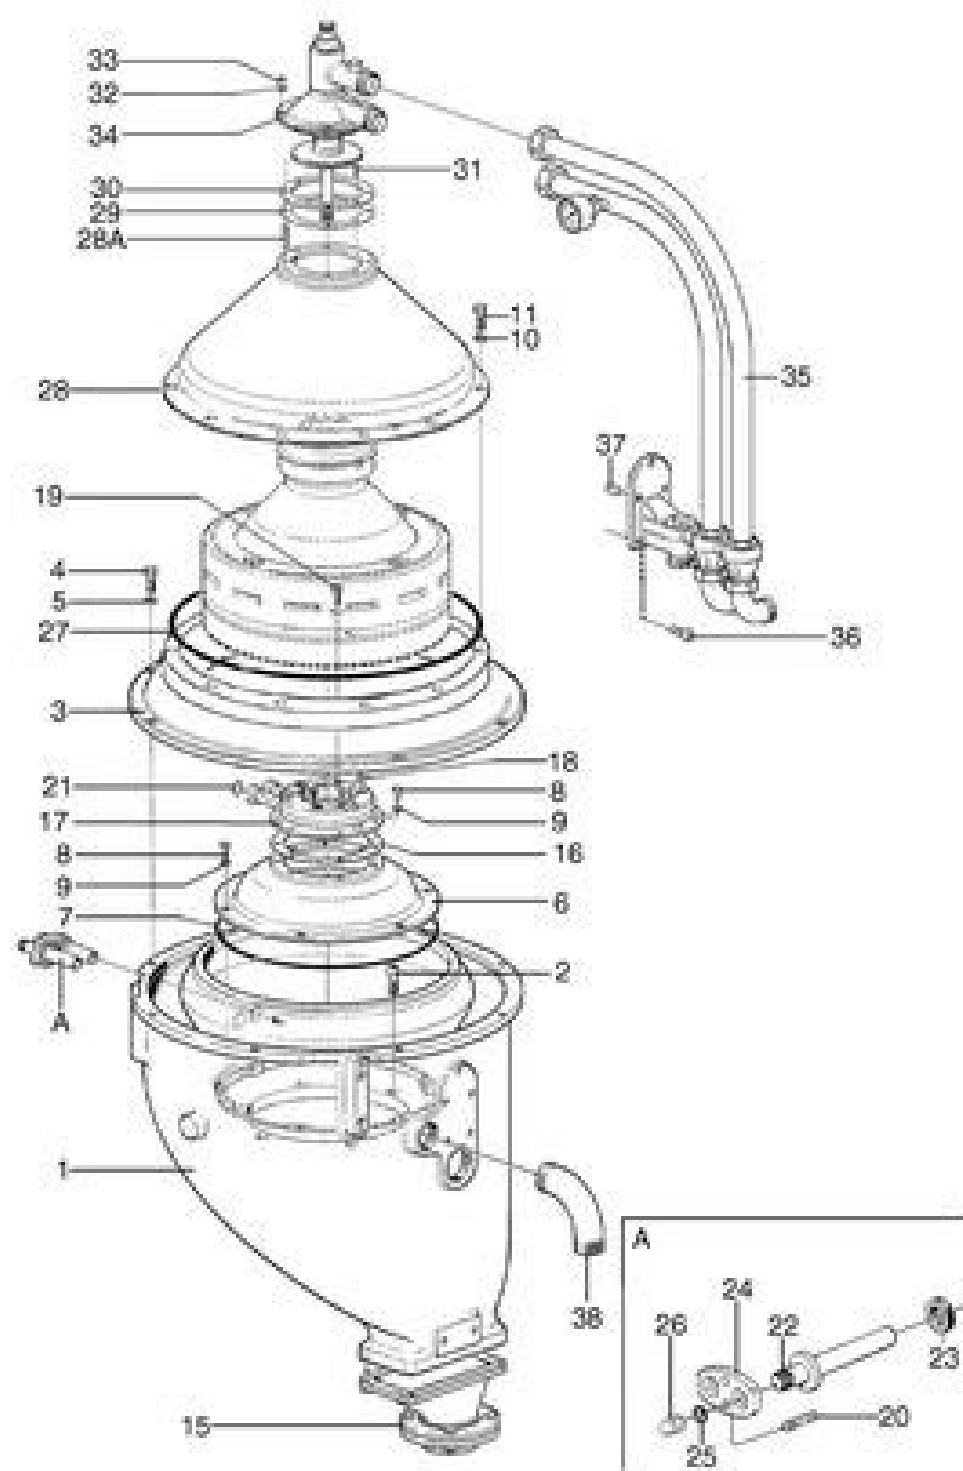

First De Laval "Alpha Disc" hand cream separator — introduced in 1890.

First De Laval "Split-Wing" Tubular Shaft hand cream separator — introduced in 1900.

The First De Laval Tangential Slot "Split-Wing" Tubular Shaft hand cream separator — introduced in 1910.

1919 De Laval hand cream separator — automatically oiled and possessing all other latest improvements.

2 Machine top part

How does a milk cream separator work.

Include tags such as place names, people, dates, events and colours. Use commas to separate multiple tags. e.g. Pablo Picasso, Madrid, red, 1930s. . Our separators will operate for years and years if you look after them. All you need to do is familiarize yourself with the manual and make sure you use genuine spare parts and the right tools. We offer a comprehensive package of detailed service instructions and specific service kits with the genuine spare parts. Maximum uptime Long working life Ready-to-use kits simplify preventive maintenance and save time Reduced order handling time Rapid delivery from global distribution network Preventive maintenance package Alfa Laval Preventive Maintenance includes an intermediate service (IS) or a major service (MS) packaged in a box with the parts you need. The service interval depends on running hours or a fixed period of time. We recommend that you: Always follow the service instructions in the separator manual Perform an Intermediate Service every 3 - 6 months (2-4,000 hours)* Perform a Major Service every 12-18 months (8-12,000 hours) depending on machine type and process conditions* Service agreements Alfa Laval Service Agreements are tailor-made solutions that combine any of our services to suit your specific needs during the lifecycle. The agreements help maximize performance and reduce your operating costs as well as giving you peace of mind. They also give you full control over your maintenance budget. Read more about Alfa Laval Service Agreements Ease of installation, operation and maintenance . This video shows how your ordered Alfie will arrive. All the packages are opened and contents are shown and explained. This video explains how to operate the Alfie 500. You will see how to set it up and start cleaning your industrial fluids. This video explains how to operate the Alfie 500. You will see how to set it up and start cleaning in a by-pass setup. This video explains how to operate the Alfie 500. You will see how to set it up and start cleaning in a tank-to-tank setup. This video shows how to clean the Alfie 500 in order to get accumulated solid contamination particles out of the bowl. This video shows how to clean the Emmie 2 in order to get accumulated solid contamination particles out of the bowl. This video shows how to exchange the mechanical seal on the feedpump to prevent leakage and loss of performance. This video shows how to exchange the O-Rings which should be done at least once a year during intermediate service. This video shows how to exchange the O-Rings which should be done at least once a year during intermediate service. This video shows how you exchange the vibration dampers if it vibrates during operation or at least once a year. . In the document list to the right you can see and overview of all product leaflets for our separator range or use the search function to look for more specific product information. . . Skip to content PHOTO HEAVY, MAY TAKE A WHILE TO DOWNLOAD: Smaller manual specific to DeLaval Junior Models: Separate fluids, solids and gases with outstanding precision and low running cost. Based on proven technology with a reputation for reliability in industries such as food, pharma, chemical, oil and wastewater treatment.
